JOHN JENKINS

ESTABLISHED 1901

JOHN JENKINS is the United Kingdom's leading supplier of handmade glass for prestigious hotels and restaurants. Since 1901 our aim has been to create fine, well-priced glasses which are practical in use and designed to complement both the wine and the table.

In this brochure you will find our stock patterns, together with examples of bespoke glassware that have been designed for some of our major clients. Developing exclusive drinking glasses for specific locations is our speciality.

OUR FINEST WINE GLASS

Up until now John Jenkins has not made a wine glass that is designed specifically for those who are passionate about the enjoyment of wine and who want a glass that will show wine at its very best.

Over the last 30 years or so there have been huge improvements in the techniques of wine making and wine is now enjoyed by a much wider audience than ever before.

We have long believed that for those who really enjoy drinking good wine, as good as some wine glasses are, an even better wine glass could be designed and made. Part of our mission in recent years has been to create a wine glass that is not just better, but that is the finest that we can make.

The Starr wine glasses are individually made by hand, in lead free crystal glass, as we wanted the glasses to be as light as is practical, with a thin stem to further reduce the weight. The lightness of the glass is very important, bringing the wine as close as possible to the drinker. The rim of the glass is also really fine, further enhancing the pleasure of tasting the wine. Starr wine glasses are beautiful to look at and in use are perfectly balanced.

We believe that using the Starr glass delivers a unique and wonderful drinking experience and we are proud to call it our finest wine glass.

BESPOKE

John Jenkins has for many years specialised in designing bespoke glassware which is supplied on an exclusive basis to many of our clients.

As this glassware is entirely handmade, almost any shape and decoration is possible and several different glass colors are available.

For this bespoke service certain minimum quantities apply.

Here is some of the bespoke glassware that we are currently supplying; our design office is always ready to discuss new projects.
